

Review Course by IDA

CMA Certified Management Accountant

About the CMA Designation

Earning the CMA® designation demonstrates mastery of the critical accounting and financial management skills. The CMA places you among the elite in the global management accounting profession and is valued by employers who recognise it as proof of professionalism and sound knowledge in accounting and finance. Attaining the CMA proves to deliver a strong return on investment with CMAs earning 61%* more in total compensation than their non-CMA peers.

E-Flashcards

More than 2,000 electronic flashcards that cover the whole curriculum.

Practice Essay

Provides the ability to practice writing and compare answers with "best answers" that PRC experts developed.

Prep Review

Includes more than 2,700 multiple-choice practice questions covering the topics tested in the two exams. Contains questions for further practice on concepts, theory covered; reasoning and explanations are provided for correct & wrong answers.

Textbooks

A comprehensive review textbook has been compiled for each part of the CMA exams and is structured according to the same order and weight as the IMA's CMA Exam Syllabus

Support

Highly capable instructors. A dedicated team for full assistance in applying procedures and follow up.

Mock Exam

A comprehensive exam for each part that mimics the real exam.

Why Become a CMA?

- CMA is the certification that fulfills the in-demand skills for the accounting and finance professions
- Return on investment: CMAs' compensation and career opportunities are higher than their non-CMA peers
- Have the prospect to practice globally in the fields of accounting and finance
- Access to more opportunities and higher paying jobs
- Attain personal satisfaction given a recognized and prestigious measure of competency
- Lay a foundation for continued improvement and advancement in the world of accounting and finance
- Demonstrate proficiency and professionalism

The CMA Exams:

1 Financial Reporting, Planning, Performance and Control

2 Financial Decision Making
